NALOXONE KIT

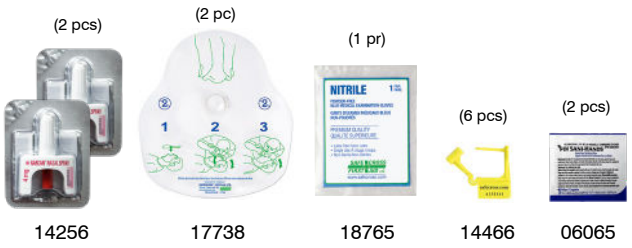
The *Occupational Health and Safety Act* is amended to require employers to provide Naloxone kits and comply with related requirements if the employer becomes aware, or ought reasonably to be aware, that there may be a risk of a worker having an opioid overdose at a workplace where that worker performs work for the employer, or where the prescribed circumstances exist.

Safecross has developed a **NALOXONE KIT** for workplaces to be compliant with the amended *Occupational Health and Safety Act*.

Naloxone kits are mountable on the wall or in work vehicles. The construction industry has been identified by the government as a high-risk setting. The demand for Naloxone kits from this sector has been steadily increasing since this new legislation was introduced. Follow the link to a Government of Ontario News Release for more details.

ITEM: 14258 (PLASTIC CASE)

ITEM: 14260 (EVA BAG)



NALOXONE SIGN
15.6 x 22.9 cm (6-1/8" x 9")

ITEM: 97143 (3D SIGN)
