

# NALOXONE KIT

The *Occupational Health and Safety Act* is amended to require employers to provide Naloxone kits and comply with related requirements if the employer becomes aware, or ought reasonably to be aware, that there may be a risk of a worker having an opioid overdose at a workplace where that worker performs work for the employer, or where the prescribed circumstances exist.

STS Group offers a **NALOXONE KIT** for workplaces to be compliant with the amended *Occupational Health and Safety Act*.

Naloxone kits are mountable on the wall or in work vehicles. The construction industry has been identified by the government as a high-risk setting. The demand for Naloxone kits from this sector has been steadily increasing since this new legislation was introduced. Follow the link to a [Government of Ontario News Release](#) for more details.

ITEM: 14258
